Dear Mark,

Thank you for helping us with our SEO Campaign. It is refreshing to find a company who can skip the technical jargon and still manage to give us a better understanding of what we can achieve. I was quite surprised that within 4 months and a bit of tweaking in the campaigns, we saw our CTR improve. We have had a few queries saying they found us on Google and even better our competitors are taking notice!

Your customer service is also something to be commended as I never had a question unanswered. I could always speak to someone if I had a problem or need something clarified.

The World Wide Web is a big marketplace which obviously has much to offer to companies like us. With your guidance and hard work, you have allowed us to tap into this business source. We hope to continue working with you and will recommend you to other businesses (except to our competitors of course).

Kind Regards,

Catri Malvarosa
Marketing Department
